HERA and Productivity Solutions Ltd. have teamed up to provide our industry members with an opportunity to learn and implement principles of Lean Manufacturing in a job shop environment – a unique opportunity for those who are keen to lift their productivity levels, reduce costs, improve customer satisfaction and bottom line.

Lean Manufacturing for Competitive Edge

Are you under pressure to

- Cut costs?
- Improve productivity?
- Increase throughput?
- Reduce lead times to customers?
- Improve operational efficiencies?
- Improve product quality?
- Increase floor space?
- Buy new machinery to increase capacity?
- Reduce scrap rate?

But don't know how?

If you answered yes to any of the above, then we may have a solution for you - **Lean Manufacturing**. Lean is an ever evolving philosophy based on proven principles and practices aimed at the elimination of waste. Lean is a continuing process of change involving everyone in the organization.
